

100PFT - Picket Fence Tool

100PFT Picket Fence Tool that will flatten and trim one end of your tube to an arrowhead with a sharp point or radius tip in one press stroke. 100PFT can be used for security fences or decorative / ornamental settings. This unit can add the flatten and trim on material up to 1" Square X .083" wall mild steel tubing.

100PFT-P Complete tool set up for standard sharp point.

100PFT-R Complete tool set up for standard radius tip.

Replacement 100PF Inserts:

100PF-P Replacement Sharp Point Flatten and Trim Inserts
Includes Punch and Lower Cutting Die

100PF-R Replacement Radius Tip Flatten and Trim Inserts
Includes Punch and Lower Cutting Die

Note: The 100PFT Picket Fence Tool will be shipped set up for a standard 1" square picket unless otherwise specified. The standard inserts for the 1" square will also work on your 5/8" and 3/4" square picket leaving only a longer flat area. Replacement form pads can be ordered separately to reduce the flat length. See Form Pads listed below.

Replacement 100PF Upper Form Pad & Lower Form / Trim Die for your Flatten Length:

100PF-P Replacement Sharp Point Flatten Form Insert
Includes Upper Form Punch and Lower Form / Cutting Die.

100PF-R Replacement Radius Tip Flatten Form Inserts for 5/8" Sq. X approximate 1.000 flat area.
Includes Upper Form Punch and Lower Form Cutting Die.

100PF-R Replacement Radius Tip Flatten Form Inserts for 3/4" Sq. X approximate 1.300 flat area.
Includes Upper Form Punch and Lower Form Cutting Die.

100PF-R Replacement Radius Tip Flatten Form Inserts for 1" Sq X approximate 1.800 flat area.
Includes Upper Form Punch and Lower Form Cutting Die.
